Oct 2026

Prez Message:

When we started this group, the goal was simple: bring together people who live and breathe cars, take our rides out for a drive and push each other's builds to the next level. Thanks to all of you, our first season exceeded every expectation.

Now, we're taking the next step. To prepare for an even bigger calendar next year, our official membership drive is now live!

Membership Drive:

Building the Scene

Starting a new car club isn't just about the vehicles we drive—it's about the community we build around them. Reflecting on our inaugural season, every cruise, shared garage tip proved that this group is built on a real, shared passion. As we wrap up this first chapter, opening our official membership drive is our next big step to make our meets bigger, our routes better, and our community stronger.

Help Us Grow the Pack!

What makes Steel Bumper Cruizers special isn't just the builds in the parking lot—it's the people behind the wheel. As we launch our membership drive, we're asking each of our founding members to bring at least one friend, build buddy, or fellow enthusiast into the fold. Send them to our website or Facebook page to sign up and see what we are all about. Invite them to the upcoming November meeting so they can see what we're all about firsthand!

Monthly Meets Aren't Stopping for Winter!

Just because the cars are getting tucked away doesn't mean the club stops moving. Starting this November, we're launching regular monthly club meetings to keep the momentum going year-round. We'll be covering everything from upcoming drives and member spotlights to winter projects. We're putting the final touches on our November venue and will drop the location details right here shorty!

Got Event Ideas or Build Photos? Help Us Shape the Club!

This club belongs to all of us, and we want your input! Whether you have a great route for a weekend cruise, a favorite local spot for a meet, or an idea for an off-season hangout, we want to bring it to life. Plus, we're always looking for member photos and build updates to feature on our official Facebook page and website. If you'd like to help organize an event or share your car's progress, drop a note in our group chat or bring your ideas to our November meeting!

Show Us What You're Driving: Member's Rides Feature

Every build has a story, and we want to share yours. We are officially rolling out a monthly Member's Rides feature across our website, newsletter, and Facebook feed. Whether your ride is a finished show-stopper or an in-progress winter build, this feature is all about celebrating our core community. Bring a photo or brief mod list to our November meeting, or tag us on Facebook to be featured!
